

- International patent No.: PCT/AU2006/000827
- Australian patent No.2006301899
- US patent application No.:11/992108(Patent pending)
- Canada patent application No.:2622269 (Patent pending)
- Ergonomically designed
- Safer, quicker & easier to use
- High pre-tensioning force
- 1/8 Chain link length adjustment
- Alloy steel, heat treated for durability
- Conforms to AS/NZ4344 standard.
- Multiple purposes
- Designed for a higher pre-tensioning strength
- Designed and manufactured by Australian Lifting Centre.

Auswinch Features

AUSWINCH

Ratchet winch with 21 teeth double pawl locking device .

**International Patent No PCT/AU2009/001455
Australian Patent No 2008905987**

Our research and development team have come up with a new innovation in Truck Winch which gives the benefits of high pretension with 30% less effort for the operator over other Winches in the market place. This registered design in the gear and pawl has become the most advanced Winch in Australia .All Loadmax Winches have this feature as standard.

Our manufacturer has come up with a patent design in Truck Winches with the feature of a ratcheting head design which gives the benefits of quick take up of strap also provides limited ratcheting angles when in operation.All Loadmax ratchet head Winches are available.
